* Recommended Retail Price (RRP) includes 3 year/max. 150,000km warranty & Infotainment pack.

ROTR = Recommended On the Road Price. All prices are recommended by ŠKODA Ireland and are inclusive of VAT. Available state subsidies for private customers comprise of VRT rebate and SEAI (Sustainable Energy Authority of Ireland) grant, subject to approval. Business/Commercial Buyers state subsidies comprise of VRT rebate only, subject to approval. Please note that the VRT rebate will change as a result of your vehicle configuration. ŠKODA Ireland reserves the right to alter pricing and specification without notice. ŠKODA Ireland has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions. The specified power consumption values are the official figures obtained in accordance with Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (Wh/km) are correct at the time of print. The above values reflect the worldwide standard vehicle range excluding additional equipment such as optional extras and accessories which may have an effect on the power consumption (Wh/km). You can discover more about the WLTP at www.skoda-auto.com/services/wltp.

ENYAQ IV 60: KEY EQUIPMENT

SAFETY

Driver & front passenger airbags incl. passenger airbag deactivation

Front side airbags w/ curtain airbag

Lane assist

iSOFIX child seat anchor points

Seat belt warning system

Hill hold control

eCall emergency system

Turn assist

Front assist: Forward collision warning incl. emergency brake & pedestrian recognition

Tyre pressure monitoring system

FUNCTIONAL

Climatronic dual-zone air conditioning

Cruise control incl. speed limiter

KESY GO – Keyless start/stop

Rear parking sensors

Power folding exterior mirrors

Automatic rain & light sensors

Auto-dimming rear view mirror

Front & rear electric windows

Mode-3 cable; 7.2kW AC (Wallbox/public charging)

50kW DC charging capability

Infotainment pack:

- 13" touchscreen display
- Navigation system
- Bluetooth & Voice control
- Smartlink (Apple Carplay / Android Auto)
- 2x USB-C ports & 8 speakers
- DAB – Digital radio reception
- Infotainment Online (3 year subscription)

EXTERIOR

19" 'PROTEUS' alloy wheels

LED headlights

LED daytime running lights

LED tail lights

Black window surrounds

Black roof rails

Radiator grille w/ chrome surround

INTERIOR

Grey & Black 'Loft' fabric & leatherette interior

Front centre armrest

Leather multi-function steering wheel

Front seats incl. height adjust (Manual)

Front seats incl. lumbar support (Manual)

Split folding rear seats w/ armrest

Front & rear floor mats

Storage compartment in boot

LED interior pack:

- LED ambient lighting
- LED footwell lights
- 'Welcome' logo projection

ŠKODA

ENYAQ IV 80: KEY EQUIPMENT

The ENYAQ iV 80 offers additional equipment & increased driving range. Key equipment includes:

19" 'PROTEUS' alloy wheels

Parking pack:

- Rear view camera
- Front & rear parking sensors

Chrome pack:

- Chrome window surrounds
- Chrome roof rails

Drive pack:

- Leather heated steering wheel (2-spoke)
- Steering wheel controls for energy recuperation
- Drive mode select

Infotainment pack:

- 13" touchscreen display
- Navigation system
- Bluetooth & Voice control
- Smartlink (Apple Carplay / Android Auto)
- 2x USB-C ports & 8 speakers
- DAB – Digital radio reception
- Infotainment Online (3 year subscription)

ENYAQ: INTERIOR

LOFT

A modern yet homely interior. The elegant and timeless combination of grey and black evokes a harmonious feeling. Families with children will appreciate the durability of the material, which is easy to keep clean.

LODGE

The theme of tomorrow's mobility and sustainability is strongly reflected in the Lodge interior. Nature moves in with you. Soft materials and bright tones make the space cosy and friendly, creating a pleasant atmosphere for the journey.

LOUNGE

The features of the innovative electric car complement the Lounge interior. The extensive interior with high-quality materials provides an aesthetic, modern look with a focus on the exclusive details.

ECO-SUITE

The stylish and refined ecoSuite interior meets the highest demands in both comfort and environmentally friendly solutions. Upholstered with unique leather in a cognac colour with contrasting details in stone beige. Instead of chemicals, an extract of olive tree leaves is used in the tanning process to make production more ecological.

SUITE

Enjoy a touch of luxury in the Suite interior design. Exclusive materials, dominated by soft leather, surround you with the highest comfort and harmony.

BATTERY & CHARGING

An electric vehicle's power is not determined solely by the power of the electric motor itself, but also by the power that the battery is able to deliver. As such, the value cited for the car's power is determined by the entire drive system.

Battery	Number of modules*	Weight	Capacity	Standard DC charging power	Optional DC charging power	System output
58 kWh	9	376 kg	156 Ah	50 kW	100 kW	132 kW
77 kWh	12	493 kg	234 Ah	50 kW	125 kW	150 kW

* One module has 24 battery cells.

Electric vehicles can be charged at public charging stations much like you would refuel a normal car at a petrol station. These charging stations are powerful so they can recharge vehicles' batteries rapidly. Most users, however, will generally use a home charger – a Wallbox – or an ordinary power socket. This charging takes longer, but hooking up to the grid is an automatic process and you can charge the batteries overnight, or at any time you are not using the car without having to be present.

Source	Charging	ENYAQ IV 60	ENYAQ IV 80	Cable
Home socket	Charging power Charging time (0-100%)	Max 2.3 kW 29 hours	Max 2.3 kW 39 hours	Mode 2
Wallbox	Charging power Charging time (0-100%)	Max 11 kW 6 hours 15 mins	Max 11 kW 7 hours 30 mins	Mode 3
DC charger	Charging power Charging time (5-80%)	Max 50 kW 55 mins	Max 50 kW 70 mins	Mode 4 – part of charging station
DC fast charger (with optional super fast charging)	Charging power Charging time (5-80%)	Max 100 kW 35 mins	Max 125 kW 38 mins	Mode 4 – part of charging station

* All charge times are average and can vary depending on certain conditions, such as temperature and power supply available.
