# LONG LIVE THE OCTAVIA!

The OCTAVIA has long been our most successful model. Maintaining this privileged position requires constant development and innovation in all areas, including design, comfort, handling, crew safety and environmental friendliness. We are pleased that the new OCTAVIA is literally teeming with new features. We are certain that it will do its name proud.

# CHARGING

### ŠKODA iV Charger Powered by Elli

The ŠKODA iV Charger or "wallbox" is a wall-mounted charging point for ŠKODA passenger cars. It provides electricity to the vehicle when it is plugged in using a cable. It is currently offered in three variants: ŠKODA iV Charger, ŠKODA iV Charger Connect, ŠKODA iV Charger Connect+. All of them draw on AC to charge the car with power of up to 11 kW.

<https://skoda-webshop.ie.elli.eco/>

### Cable for home charging

Available as a spare part

The MODE 2 cable is a great solution for customers who need to charge their car from regular „home“ socket. The cable length is 6m.

### Bag for charging cables

000 087 317BQ

A practical accessory for any electric car, used for carrying the charging cable.

### Cleaner for charging cables

000 096 150F

The charger cable cleaner is used for cleaning and/or drying the cable before placing it in the interior of the car or a bag.

### Cable for public charging

Available as a spare part

The MODE 3 cable is for public charging networks. This product is for charging stations that don't have a charging cable or aren't equipped with a suitable one. The cable length is 6m.

# SPORT & DESIGN

## DECORATIVE DOOR SILL COVERS

Four piece side door sill covers with OCTAVIA inscription and two piece illuminated door sill covers, which perfectly follow the contours of the vehicle. They are an original feature with aesthetic as well as practical functions such as protecting the paintwork around the door sills from dirt.

**Illuminated door sill covers**

# WHEELS

# Did you know that...

All our alloy wheels have passed rigorous homologation tests to prove their resistance to corrosion, climatic influences and driving strain?

Moreover, alloy wheels are protected by a layer of extremely hard, heat-resistant paint.

# CONNECTIVITY

# ŠKODA CONNECT

It's about the journey, not just the destination – and with the ŠKODA OCTAVIA, everyone in the vehicle can enjoy the trip. A connected multimedia system makes it easy to communicate with friends and family, get the information you need, and keep you and your passengers happy and entertained while you drive.

With your mobile device, you can use the ŠKODA Connect App to remotely check the status of your vehicle, lock or unlock it, or display its parking position, with a number of further functions just waiting to be explored. Benefit from statistical insights into your last trip, and use them to plan a more efficient route next time.

## CONNECT App

With the **ŠKODA Connect App** in place, your car remains under your control at all times. Access all necessary features and functions of your vehicle anywhere, anytime from your smartphone or smartwatch. Features are available based on ordering ŠKODA Connect bundle: Infotainment Online or Care Connect.

**QUALITY  
& TESTING**

# QUALITY THAT HOLDS AND LASTS

Did you know that the textile floor mats from ŠKODA Genuine Accessories also undergo the so-called 'heel test'? This test simulates the action of the driver's foot on the accelerator, sinking the heel 5 mm into the floor mat in both dry and wet conditions at an angle of 45°.

The floor mats also undergo an additional load test in the form of a long driving test, and further focus is placed on the brackets fixing the front floor mats to the car upholstery. The tests are designed to verify the proper clip strength needed to enable comfortable handling by the driver, while keeping the floor mat in place despite the occasional application of force during the drive.

Testing of fixing element strength

# CHILD SEATS SAFETY TESTING

Do you want to ensure the maximum safety of your children in the car? The child seats from ŠKODA Genuine Accessories with mounting options for transporting against the direction of travel, comfort and variability, represent the best solution for transporting the smallest passengers.

## Practical and variable

The intelligent design of these child seats allows the child to not only be seated in the back, but also on the front passenger's seat where you can see them. The child seats feature variability and numerous setting options to adapt them to the changing size of your children.

## Perfectly verified

All child seats from ŠKODA Genuine Accessories comply with European safety regulations (EHK 44.04) and have passed a number of other tests. The high quality and safety of these child seats is demonstrated by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.

# ŠKODA EXPERIENCE

### MyŠKODA App

Get your very own personal digital companion. Download MyŠKODA App featuring PAUL, an interactive assistant who's there to help you, not only with watching over your car, but also with managing your day.

### ŠKODA Connect App

Enjoy full control of your car. Download ŠKODA Connect and access all necessary features anytime, whether it's driving data, fuel range, planning a route or even where you last parked.

ŠKODA Genuine Accessories are offered by ŠKODA as optional extras at additional charges. Colours, designs and materials may differ from those in the illustrations. Information such as specifications, appearance, performance, dimensions, weight, fuel consumption and operating costs relating to the illustrated vehicles and products is based on information available at the time of printing this document, and ŠKODA reserves the right to change these data.

Correct rim and tyre size combinations are available in the Registration Certificate and/or from your dealer. When choosing snow-chains, make sure to follow the indication in your car's certificate of roadworthiness.

Wheels depicted on the cars may not be part of the available range.

Please contact your ŠKODA Dealer for information as to which products are available and suitable for your model, what restrictions apply, the installation times required and costs. Subject to change without notice.

Vehicle parameters such as weight, rolling resistance and aerodynamics may vary depending on additional equipment and accessories (attachments, tyre sizes, etc.) and may, together with weather, traffic conditions and individual driving styles, affect fuel consumption, electricity consumption, CO<sub>2</sub> emissions and other performance parameters. ŠKODA Genuine Accessories are not used to determine consumption and emission levels, and can therefore only be fitted after the vehicle's first registration.
